### **SHERRIE T. BECKSTEAD**

**THE LOCKKEEPERS COLLECTION  
OWNER AND DESIGNER**

What began as a passion for history, architectural preservation and a fascination with 5,000 years of stories and world history related to the bejeweled became one of Sherrie Beckstead's greatest callings through The Lockkeepers Collection.

The jewelry collection features a bespoke handcrafted lock and key, symbolizing Beckstead's commitment to preserving the country's rich history and unlocking its timeless meaning for generations to come. Beckstead donates 50% of the proceeds to the Trust for the National Mall, which is dedicated to stewarding private support to preserve the National Mall's legacy.

Beckstead's mission is to lead with honor and integrity. She brings her A game to work every day, no matter the task. Beckstead believes that our personal journey, and our business culture, should align. Treating people with respect, dignity, kindness and a genuine regard for what is just and fair is an integral part of her core leadership constitution.

As a principal/partner in Liljenquist & Beckstead Jewelers and Lenkersdorfer Fine Jewelers, Beckstead is carrying on the legacy of her husband, Sidney. To continue to honor him, she established a scholarship in his name, the first of which was awarded in June 2021, to a student that will study jewelry design at Fashion Institute of Technology in New York.

Giving back is at the heart of what Beckstead does, and mentorship continues to be a key part of her personal mission. Advancing positions, sharing best practices and listening to the needs of her communities is an integral part of the support that Beckstead is honored to give.
